

13th Annual NGV Achievement Awards 2005

The Clean Vehicle Education Foundation (CVEF) and the Natural Gas Vehicle Coalition (NGVC) sponsor the NGV Achievement Awards to recognize individuals and organizations for their outstanding contributions toward the advancement of natural gas as a vehicular fuel. They are awarded to nominees from all stakeholder segments, including but not limited to: NGV industry equipment and service suppliers, policy-makers, customers and clean-air/clean transportation advocates. Nominees' disciplines include education, government relations/policy development, public relations/communications, marketing, technology and operations/applications, among others.

Judges representing CVEF and NGVC will evaluate the nominees on the basis of the established judging criteria. The Achievement Awards program is non-competitive; therefore the qualifications of the nominees will dictate the number of awards presented. There is no pre-determined number of awards.

Judging Criteria

Although the awards program is noncompetitive, it is necessary to establish basic judging criteria. These criteria are designed to qualify the achievements and contributions of the nominees. Judges will be asked to assign a value of 1 to 10 to each of the following statements:

The achievements of the nominee:

- Have significantly advanced the use of natural gas as a vehicular fuel.
- Are unique, innovative or creative in approach to a problem or opportunity.
- Are specific and have measurable results.
- Advance community and NGV industry goals of improving air quality and reducing dependence on oil
- Illustrate good character and are consistent with ethical business practices.

Entry Rules

- Only CVEF sponsors and NGVC members may make nominations, although nominees are not required to be members or sponsors of either organization. Nominations may be submitted for individuals, as well as for companies or organizations.
- CVEF sponsors and NGVC members each may submit up to three nominations.
- In addition to completing the attached form, nominations **MUST** include a supporting statement addressing the judging criteria.
- Completed nominations must be received by **September 9th, 2005**.
