Who We Are?

Altech-Eco is dedicated to the development and growth of alternative energy for transportation in North America.

Altech-Eco Corporation

Owns and operates a 27,000 sq ft technology facility located near Asheville in Arden, NC. This facility serves two specific functions.

Altech-Eco Corporation

Serves as a conversion up-fit facility providing our clients with a modern well equipped location where existing fleet conversions can be performed by our experienced staff.

Altech-Eco Corporation

Also functions as a research and development facility for the creation of EPA certified CNG conversion systems for sale in the aftermarket

EPA certified 2008/2009 model Ford Focus Natural Gas Vehicle

Price competitively at a base model starting price of \$24,999

EPA certified 2008/2009 model Ford Focus natural gas vehicle

- MPG 24 City 35 Hwy on CNG
- Original Ford Factory Warranty remains valid
- 80,000 mile or 8 year Warranty on CNG components
- 2008 and 2009 models available
- Financing through Ford Motor Credit at participating Ford dealerships
- Available as Dedicated or Bi-Fuel NGV
- CNG driving range of 218-318 miles
- 9.1 Gas Gallon Equivalent tank for CNG
- 8 cubic feet of remaining trunk space
- The bi-fuel vehicle can change between gasoline and natural gas with the simple push of a button. Our LED switch allows easy change between fuel sources while driving, and acts as a CNG fuel gage while using CNG or while using gasoline.
- In-line coalescent filter assuring miles of trouble free operation. The natural gas is filtered down to 10 microns assuring only the cleanest possible gas enters the fuel system.

EPA Certification

- All our vehicle platforms will be EPA certified as both dedicated and bi-fuel NGVs

Our Dedicated Ford Focus meets Tier 2 Bin 2 emissions

- Our dedicated vehicle will qualify for the full \$4,000 tax credit

Future vehicle platforms for EPA certification:

- 2009 Ford Fusion
- 2010 Ford F-150
